Subject: Final Estimate of the January 1, 2022 Population for the City of Hartford in Washington County

Dear Municipal Clerk:

The final estimate of the January 1, 2022 population for the City of Hartford in Washington County is 15,796.

Approximately 12,078 of the estimated population for the City of Hartford are of voting age. This approximation is a courtesy estimate that helps you comply with Wisconsin Statute 5.66, which requires municipal clerks to approximate the number of electors prior to elections. The voting age population was calculated by applying the 2020 Census proportion of persons age 18 and over to the final January 1 estimate, and then multiplying the result by a state-wide factor to account for the general aging of the population. Please note that, if you have an adult correctional facility in your municipality, its population is included in this voting-age estimate.

Please remember that prior estimates were based on 2010 Census counts and that, by statute, DOA's 2022 estimates are based on the U.S. Census Bureau's 2020 counts. For these reasons, it is useful to compare DOA's 2022 estimates to the U.S. Census Bureau's 2020 counts and it is **not** useful to compare DOA's 2022 estimates to prior DOA estimates.

Subject: Final Estimate of the January 1, 2022 Population for the City of Hartford in Dodge County

Dear Municipal Clerk:

The final estimate of the January 1, 2022 population for the City of Hartford in Dodge County is 9.

Approximately 8 of the estimated population for the City of Hartford are of voting age. This approximation is a courtesy estimate that helps you comply with Wisconsin Statute 5.66, which requires municipal clerks to approximate the number of electors prior to elections. The voting age population was calculated by applying the 2020 Census proportion of persons age 18 and over to the final January 1 estimate, and then multiplying the result by a state-wide factor to account for the general aging of the population. Please note that, if you have an adult correctional facility in your municipality, its population is included in this voting-age estimate.

Please remember that prior estimates were based on 2010 Census counts and that, by statute, DOA's 2022 estimates are based on the U.S. Census Bureau's 2020 counts. For these reasons, it is useful to compare DOA's 2022 estimates to the U.S. Census Bureau's 2020 counts and it is not useful to compare DOA's 2022 estimates to prior DOA estimates.
